Elegant, Expressive, Timeless — An Instrument for the Ages

Roland Organ — MUSIC ATELIER

From generation to generation, families around the world have filled their homes with the joyful sound of the organ. As the centerpiece of social gatherings and events, the organ has become more than just a musical instrument — it is an icon of expression, enjoyment, and entertainment. Embodying Roland's world-leading digital technology, the MUSIC ATELIER organ inherits the full, rich sound and elegant design of a traditional organ combined with the most expressive and advanced home-organ features. For all who love the organ, we proudly present the magic of MUSIC ATELIER.

MUSIC ATELIER Concept

•Organ Sound

From the sound of stately classical and theater organs of the silent-movie era to up-tempo jazz and rock organs, MUSIC ATELIER provides organ sounds from around the world, letting you play any genre convincingly. You can even layer authentic Orchestral Voices with the organ sounds, creating sounds and textures that were never possible with conventional organs.

•Real-time performance

MUSIC ATELIER is a dream for real-time performance, with expressive features that enhance your ability to play, not impeded it. Performers love the clear, easy-to-understand control panel based on traditional playing techniques, and a lower keyboard that expands the tonal palette. While playing, you can switch from one registration to the next and layer sounds freely.

•Compatibility

The series design concept is thoroughly unified, allowing music and registration data to be exchanged between models. Operation panel layouts are similar between models, making data exchange and control fast and easy.

Praise for MUSIC ATELIER

Hector Olivera

"I've always felt that MUSIC ATELIER captures the superior real-time expressiveness of the player's emotion. I often play orchestral music by myself with this MUSIC ATELIER since it's full of beautiful orchestral voices. I especially love the newly built-in 'Articulation Voice' of violin and cello, etc., because they allow me to play every delicate nuance of the original instruments."

Tony Fenelon

"The MUSIC ATELIER has always given me so much enjoyment and confidence in expressing my many musical tastes, whether they be symphonic, jazz, big band, theatre or classical pipe organ. The AT-900 has taken excellence to new heights, and it features superb new authentic theatre organ voices with rich tremulants to capture the magnificence of the 'king of instruments'. This new instrument takes on a whole new dimension with even more enhanced sound quality which will inspire you to the limits of your imagination."

Yuri Tachibana

"My fascination with the MUSIC ATELIER organ is its sound, which is the most important part of a musical instrument. Every tone is clear and realistic, and every time I play it I feel great. The wide variety of realistic rhythms always inspires me with fresh ideas, and I love to use the new Harmonic Bar, which enables performance with complete freedom. It's also a pleasure that data compatibility and consistent operation are thoroughly kept. The MUSIC ATELIER expands your musical experience without limit."

AT-900

Advanced technology meets organ tradition

Organ Sound

A universe of organ sounds from a single instrument

In addition to the sound of some of the world's most admired organs, the new Atelier series are also equipped with a footage sound source. By combining sounds that differ in height from 1 to 16 feet, you can freely customize the tone, creating the perfect organ sound for each song and spatial environment. Sounds can be further polished with rich, sparkling tremulant and a variety of sampled sound sources. Rounding out the sound set are thick, gorgeous pipe organ voices derived from acclaimed RODGERS digital classic organs.

Harmonic Bar enables intuitive, expressive playing

The new physical Harmonic Bars provide authentic, hands-on control for expressive organ playing. Under the control of the

Bars is a Virtual Tone Wheel voice engine derived from Roland's acclaimed VK combo-organ series. Furthermore, an individual solo bar* is provided for the onboard Orchestral Voice, allowing organ sounds to be combined with Orchestral Voices for incredible textures.

*AT-900/900C/800/500

Orchestral Voice

Diverse Orchestral Voices

In addition to classic Orchestral Voices such as strings, brass, and plucked instruments, new expressive tones have been added, including Mood Strings, Mellow Harmonica*, and Jazz Flute*. By selecting a voice from the three parts — Organ, Symphonic and Orchestral — you can create layered textures for both the upper and lower keyboards. Also, special Active

Expression Voices are available so when you move the expression pedal, the sound becomes more animated and expressive.

*1 AT-900/900C/800 *2 AT-900/900C/800/500

Acoustic-instrument expression with Articulation Voices

Using new technology called SuperNATURAL™*, the most subtle and expressive characteristics of acoustic instruments such as breath and articulation anomalies are faithfully provided. This technology can be applied to the four Articulation Voices: Violin, Trombone, Cello, and Tenor Sax. In addition, you can control vibrato, pizzicato, portamento, and other expressive effects to get just the sound you want.

*AT-900/900C/800

SuperNATURAL is Roland's breakthrough sound-generating technology that enables a new level of realism and expression. SuperNATURAL reproduces the delicate, organic tonal changes and playing nuances of acoustic and electric musical instruments.

Playability

Easy-to-use control panel based on traditional organ-playing principles

With its simple panel layout, MUSIC ATELIER has been designed with priority given to the real-time needs of playing. Buttons are color coded according to function. Selection of sounds, voice layering, and balance changes — its design enables complete freedom of expression, with all settings quickly changeable in real time.

Lower keyboard for added expression

The lower keyboard offers much more than meets the eye. You can program it for solo voices, bass parts, or even divide it into four parts*¹ using the Split function: Solo, Lower, Bass, and Keyboard. With a wide range of 76 keys*², full-fledged piano playing is also possible. Piano performance is further accentuated with "Initial Touch",

a feature that enables the keys for delicate, expressive touch; damper pedaling is supported as well. In addition, the lower keyboard uses a Waterfall keyboard that does not catch the fingers, and is well suited for glissando and other styles of playing.

*1 AT-900/900C/800/500. AT-300/100 are a maximum of three parts, AT-75 is two parts. *2 AT-900/900C/800. AT-500 is 64 keys, AT-300/100 are 61 keys, AT-75 is 49 keys.

Pedalboard frees your hands, and creative potential

The built-in pedalboard*¹ can be used for hands-free bass playing, for harmonic playing found in pipe-organ music, and even for layering two different sounds*². Put your feet into the action, and your performance options will double.

*1 For AT-900C, optional pedalboard PK-25A or PK-7A required.
*2 AT-900/900C/800 can layer up to three sounds. The AT-500 is up to two sounds.

Design

The beauty of the organ

Elegant and stately — the newly adopted walnut cabinet and polished gray panel color remain true to the beauty of the organ. The AT-900C features excellent portability with a modern style that looks good both on stage and in your living room.

Compatibility

Consistent design concept and data compatibility for all models

A high degree of data compatibility ensures that valuable music resources, including your own music and registration data, can be exchanged between different models. You can even transfer data between new Atelier organs and previous models such as the AT-90SL and AT-80SL.

AT-900

Freedom to play what you imagine. Roland expands the potential of organ playing.

Advance

Large color LCD monitor with easy-to-operate touch panel*

To make operations even easier, all models feature a large color touch-panel LCD with a quick-start guide built in. The newly expanded screen enables often-used menu icons to be always shown on the monitor, which further simplifies navigation and operation.

*AT-900/900C/800/500

• DigiScore™ display

Commercially available SMF music data and pre-recorded performance data are displayed onscreen in musical notation. Through the use of digital technology, the score screen can be zoomed. The part for a single hand can be displayed, and lyrics can be shown as well. It's also easy to mute particular parts so you can enjoy "minus one" playing.

• Sound settings

The selected sound name is shown onscreen. Setting the sound for the upper keyboard, lower keyboard, and pedalboard is quick and easy.

▲AT-900/900C/800

Registration: optimal panel settings can be instantly recalled

For ease of use during performance, your favorite voice and rhythm selections, as well as other panel settings, can be instantly recalled from internal memory or USB memory key. You can produce magnificent ensemble performances, instantly switching between combinations of sounds.

• Quick registration* from the hands of world-class organists

From keyword categories you can select registrations compiled by Hector Olivera and other internationally acclaimed organists. Play with the know-how of professional players.

▲AT-900/900C/800/500

Expression

RSS reverb, exclusive Roland technology, provides the rich, resonant ambience of cathedrals

Equipped with Roland's exclusive RSS (Roland Sound Space) technology, all MUSIC ATELIER models provide luxurious reverb sound. From the type of venue to the wall material, various reverberation parameters can be set. AT-900/900C/800 have a special output jack that, when connected to external speakers or a home audio system, fills the space with lush, cathedral-like ambience.

Harmony Intelligence for a beautiful ensemble sound

With Harmony Intelligence, a beautiful harmony complements the melody played on the upper keyboard. The wide-ranging variety of styles includes big band, combo, and country. Enjoy full ensemble playing across a world of musical genres.

Complete set of effects to enrich your playing

In addition to a complete set of effects that includes rotary, chorus*, sustain, and reverb, all models provide a footswitch for controlling realistic glide effects, and even a lever* that enables expressive pitch bending and vibrato.

*AT-900/900C/800/500

Excitement

Greater freedom of expression just by moving your hand: D BEAM*

The D BEAM controller lets you wave your hand over the invisible

infrared beam to alter the sound. Filter and pitch bending effects allow mute trumpet and tenor sax voices to be played with greater realism. Single-shot sounds, such as cymbals and wind chimes, can also be played dramatically from the D BEAM.

The beam in the photo has been colored to show the path of the D BEAM; the actual beam is invisible.

*AT-900/900C/800/500

With auto accompaniment, you can play along with musicians from around the world.

Swing, country, bossa nova — with MUSIC ATELIER you can play along with rhythms from all over the world. The built-in patterns feature the ultra-realistic groove and feel of professional drummers. By playing simple chords on the lower keyboard, the arranger function (Auto Accompaniment) automatically adds accompaniment, letting you play with a virtual backing band of world-class musicians. A host of convenient functions are available, such as automatic fills that add color to your playing, one-touch program functions that call up optimal panel settings, and four Variation Buttons for smooth song transitions and a wider variety of accompaniment patterns within a single Style.

Composer function for visual lyric and note display

The Composer function on AT-900/900C/800/500 provides a friendly graphical environment for song creation and performance. It can display the parts you record as well as your song lyrics, and it allows you to switch between the mute screen and lyrics display screen with a single touch.

Enjoyment

Convenient USB compatibility for your musical data

To save and retrieve your precious data, simply plug in a USB memory key — a global external-storage standard*. Data

exchange with previous models such as the AT-90SL and AT-80SL is also fully supported. Data from floppy disks can also be accessed using the optionally available FD-01A USB floppy disk drive.

*Roland M-UF1G (sold separately) recommended for perfect aesthetic and functional compatibility.

Connect external devices for creative expansion

Expand your musical universe by incorporating musical content from around the world. If you connect a portable audio player or USB CD drive, for example, you can play along with audio CDs or music stored in other formats. Furthermore, if you connect an iPod® or MP3 player to the Roland Audio-Visual Port*, you can employ the Center Cancel function to minimize vocals, or use the Pitch Change function to transpose the key of your pre-recorded music to your favorite keys. Moreover, you can connect devices such as the powerful SA-1000 stage amp, mics, and large screen TVs and displays. Excellent, of course, for playing on your own, but also great for home karaoke and stage performances. Use the supplied remote control* to select songs and play, return, and stop, or to adjust the tempo and key. Whatever the situation, MUSIC ATELIER is sure to be at the heart of the fun.

iPod® not included.

Roland Audio-Visual Port

AT-900(Satin Walnut)

AT-900

The stately beauty of an impeccably crafted organ console

The AT-900 organ console is the genuine article, crafted in America from seasoned natural wood. The gorgeous cabinets are adorned with notable features, including gentle illumination, a sliding music rest, and a large LCD color touch-screen. The visual beauty of the flagship MUSIC ATELIER is matched by the magnificent sound that Roland is world famous for. It's a true delight for the eyes, ears and fingers.

[Main Features]

- 56-key upper keyboard with aftertouch sensitivity, 76-key lower keyboard (waterfall), 25-key wooden pedalboard
- 6 full-range speakers, 1 woofer, 4 tweeters for outstanding sound; total 240W rated power output
- 384-voice polyphony
- Large LCD color touch-screen with intuitive, user-friendly interface
- 450 high-quality organ and instrument voices, 300 rhythm patterns
- Dedicated harmonic bar for orchestral tones; wide variety of built-in music and performance styles
- 2,400 onboard presets with One-Touch Programs
- Enhanced Music Assistant function with 2,800 settings and search feature
- 36 Harmony Intelligence settings
- 216 Quick Registrations
- 7-track recorder onboard
- USB memory key for external storage
- Warm, luxurious console lighting

Shown with optional
BNC-27-WN organ bench.

AT-800

Experience the supreme organ playing experience

Luxurious cabinet, finished in natural wood . . . control panel, softly lit . . . not only is the form elegantly superb, the advanced sound source is as impressive as it is expressive. From the multidimensional RSS reverb output, which can give your room the ambience of a cathedral, to the luxurious large color LCD touch-panel — the AT-800 MUSIC ATELIER organ provides a supreme organ playing experience.

[Main Features]

- 56-key upper keyboard with aftertouch sensitivity, 76-key lower keyboard (waterfall), 20-key pedalboard
- 6 full-range speakers, 1 woofer for outstanding sound; total 240W rated power output
- 384-voice polyphony
- Large LCD color touch-screen with intuitive, user-friendly interface
- 450 high-quality organ and instrument voices, 250 rhythm patterns
- Dedicated harmonic bar for orchestral tones; wide variety of built-in music and performance styles
- 2,000 onboard presets with One-Touch Programs
- Enhanced Music Assistant function with 2,100 settings and search feature
- 25 Harmony Intelligence settings
- 216 Quick Registrations
- 7-track recorder onboard
- USB memory key for external storage
- Warm, luxurious console lighting

SA-1000

Stage Amplifier

Note: While two SA-1000s can be used as a stereo pair as pictured, each SA-1000 is sold separately.

Compact, light weight, high power Superior stage amp especially crafted for organs and digital pianos

Optimized for organ

The SA-1000 is a super-lightweight and portable stage amp customized for use with organs and digital pianos. In addition to being easy to operate and simple to set up, it reproduces every sound nuance from powerful bass to sparkling highs. It is well suited for a wide range of venues and events, from parties and special occasions to recitals and concerts in small-to-large halls.

Excite the audience with a single touch: Organ Enhance

If you want to impress your audience with a grand, climactic sound, just press the Organ Enhance button. As soon as Organ Enhance is active, a vigorous mid- and low-frequency enhancement occurs, while crystal highs remain.

Feedback Eliminator

The built-in Antifeedback function automatically cancels unpleasant howling. Thanks to this show-saving feature, the SA-1000 can be placed in once-problematic locations, such as behind the player, providing both onstage monitoring for the performer and audio projection to the audience.

Setup Examples

AT-900C

On stage or in home, enjoy top quality in a modern and portable form

It's gorgeous and stately, yet the AT-900C is portable enough to be taken on the road. The contemporary, streamlined cabinet design combines a natural wood finish with eye-catching silver accents. Specially equipped XLR outputs facilitate professional setups for concert performances.

[Main Features]

- 56-key upper keyboard with aftertouch sensitivity, 76-key lower keyboard (waterfall), optional pedalboard available*
- 2 full-range speakers, 1 woofer, 2 tweeters for outstanding sound; total 160W rated power output
- 384-voice polyphony ● Large LCD color touch-screen with intuitive, user-friendly interface
- 450 high-quality organ and instrument voices, 300 rhythm patterns
- Dedicated harmonic bar for orchestral tones; wide variety of built-in music and performance styles
- 2,400 onboard presets with One-Touch Programs
- Enhanced Music Assistant function with 2,800 settings and search feature
- 36 Harmony Intelligence settings
- 216 Quick Registrations
- 7-track recorder onboard
- USB memory key for external storage
- Warm, luxurious console lighting

Shown with optional PK-7A Pedalboard and BNC-23 organ bench.

*Choice of pedalboards (sold separately): 25 key wooden pedalboard (PK-25A) and 20 key pedalboard (PK-7A).

Shown with optional
BNC-27-DB organ bench.

AT-500

Superior Quality and Features for Ultimate Expression

Housed in a gorgeous, dark walnut cabinet, the AT-500 exudes quality and class. Its harmonic bars provide instant access to a wide variety of superior organ sounds, while the full-range speaker system provides a warm, rich sound that fills any room. For a breathtaking ensemble sound, the Solo Harmonic Bar lets you layer organ sounds with built-in orchestral instruments. An invisible D BEAM is included for creating dramatic effects. Despite its wealth of features, the AT-500 is easy to navigate thanks to its large color LCD touch panel.

[Main Features]

- 49-key upper keyboard, 64-key lower keyboard (waterfall), 20-key pedalboard
- 2 full-range speakers, 2 tweeters; total 100W rated power output
- 128-voice polyphony
- Large LCD color touch-screen with intuitive, user-friendly interface
- 250 high-quality organ and instrument voices, 195 rhythm patterns x 4 variations
- Dedicated harmonic bar for orchestral tones; wide variety of built-in music and performance styles
- D BEAM
- 1,560 onboard presets with One-Touch Programs
- Enhanced Music Assistant function with 1,000 settings and search feature
- 18 Harmony Intelligence settings
- 150 Quick Registrations
- 7-track recorder onboard
- USB memory key for external storage

Shown with optional
BNC-15-DR organ bench.

AT-300

Serious Performance in a Compact Cabinet

With its space-saving design, classic roll-top cover, waterfall keys, and harmonic bars for authentic tone control, the AT-300 is the perfect choice for organ enthusiasts who want pro features with a smaller footprint. Equipped with 180 types of built-in musical instruments, plus 120 rhythms (each with four variations), the AT-300 puts a world of music at your fingertips. The built-in speaker box delivers a powerful, resonant sound that defies its size, while the backlit graphical LCD provides clear, concise control.

[Main Features]

- 49-key upper keyboard, 61-key lower keyboard (waterfall), 20-key pedalboard
- Total 60W rated power output
- 128-voice polyphony
- Backlit graphical LCD with intuitive, user-friendly interface
- Harmonic Bar
- 180 high-quality organ and instrument voices, 120 rhythm patterns x 4 variations
- 480 onboard presets with One-Touch Programs
- 12 Harmony Intelligence settings
- 7-track recorder onboard
- USB memory key for external storage

AT-100

Entry Model With Great Performance and Friendly Features

The AT-100 is modern, stylish, and compact, beautifully accenting its surroundings without occupying much space. With 120 types of built-in musical instruments, 80 rhythms (each with four variations), plus harmonic bars for authentic tone control, the AT-100 provides a surprisingly wide lineup of sound and rhythm for its price and size class.

[Main Features]

- 49-key upper keyboard, 61-key lower keyboard (waterfall), 20-key pedalboard ● Total 40W rated power output ● 128-voice polyphony
- Backlit graphical LCD with intuitive, user-friendly interface
- Harmonic Bar ● 120 high-quality organ and instrument voices, 80 rhythm patterns x 4 variations ● 320 onboard presets with One-Touch Programs ● 9 Harmony Intelligence settings ● 7-track recorder onboard ● USB memory key for external storage

AT-75

The Most Affordable MUSIC ATELIER — Perfect for First-Timers

At a price that's friendly for all budgets, and a size that will comfortably fit into any room, the AT-75 welcomes everyone to experience the joy of traditional organ playing. This small yet impressive instrument is equipped with the same harmonic bars and lower waterfall keyboard as the upper-line models. It's fun, inviting, and great sounding.

[Main Features]

- 49-key upper keyboard, 49-key lower keyboard (waterfall), 13-key pedalboard ● Total 30W rated power output ● 128-voice polyphony
- Backlit graphical LCD with intuitive, user-friendly interface
- Harmonic Bar ● 60 high-quality organ and instrument voices, 40 rhythm patterns x 4 variations ● 160 onboard presets with One-Touch Programs ● 6 Harmony Intelligence settings ● 7-track recorder onboard ● USB memory key for external storage

Acquiring skill the fun way. A heightened organ experience with Score Book and visual media.

Roland Collection Series/Score Series (music scores plus DVD content)

Get on the fast track to real proficiency Observe images of pro technique while practicing

Each DVD in the "Roland Collection Series/Score Series" is an anthology of musical pieces with visual aids that capture the performance styles of top players and arrangers. Whether you want to master fingering technique or just play the organ casually, or practice changing registration while playing or improve your pedaling... by observing the supplied video footage, you can learn musical rudiments more quickly and intuitively. Furthermore, the registration data included on the bundled floppy disk is very useful when practicing.

▲ Features easy-to-read music scores, plus sound- and register-setting charts. Background information about the songs is also provided. These friendly score books will make learning fast and fun!

▲ Because each song is captured from three angles, you can choose which angle from which you would prefer to view the performance. Watch, play along, and learn... it's fun!

▲ It's like having a professional performer at your side. Watch close-ups of hand and foot movements, and put your skill development on the fast track.

Roland Collection Series (Bundled DVD and FD)

Hector Olivera Organ Music Collection Vol.1

VIMA TUNES™ CD-ROM Library

VIMA
TUNES™

Build Your Dream Audio/Visual Collection

With MUSIC ATELIER as your entertainment centerpiece, you can assemble your own personal library of timeless songs and images with VIMA TUNES CD-ROM discs. These discs are packed with amazing music, still images, and scroll-along lyrics—ready to load and play right out of the jewel case!

VIMA TUNES CD-ROM (CD that enables use of E-Z PLAY TODAY libraries)

The VIMA TUNES CD-ROM features music from the E-Z PLAY® TODAY libraries in VIMA TUNES data format. During playback, it is possible to put on an attractive slideshow that complements the music and adds another dimension of entertainment and pleasure.

- For each song, you can use the Recommended Tone feature to activate settings optimized for the selected melody. While you're playing, you can easily build up the song by switching from piano for the intro to flute for the main passage, for example, and to swelling strings for the ending.
- Using Melody Mute, you can silence the melody part and sing along karaoke-style while playing a one-handed accompaniment.

What's VIMA TUNES ?

VIMA TUNES is a Roland standard that enables still-image and lyric display during music playback. You can enjoy slideshows and lyrics for karaoke on external displays, such as large-screen TVs, when you play back VIMA TUNES on VIMA keyboards, Atelier or compatible Roland products.

VIMA
TUNES™

E-Z PLAY TODAY music score collection for VIMA TUNES

E-Z PLAY TODAY notation-training books are a perfect companion for Roland's VIMA TUNES CD-ROMs. These excellent books make it easy to learn the basics of music sight-reading. The notation is presented in large characters, with easy-to-see chords and lyrics that match the VIMA TUNES songs.

E-Z PLAY TODAY music scores are published by HAL LEONARD CORPORATION and Music Sales Limited, and are commercially available in the market. They are also available through Roland.

- Beginners will appreciate E-Z PLAY TODAY easy-to-read pitch-notiation scores presented in large characters. This is great for people who are new to reading music and keyboard playing, but who want to enjoy the pleasure of learning how to play certain songs.
- All the necessary visual representations are shown, including # (sharp) and b (flat) semitone markers. Since the black keys are clearly indicated, you are less likely to make mistakes: There is no need to understand music theory or notation.
- Chords and lyrics are also easy to see. This makes playing and singing much easier.

SPECIFICATIONS

SA-1000

Rated Power Output	350 W (75 W x 2 + SUBWOOFER 200 W)
Nominal Input Level (1 kHz)	INPUT (MIC): -50 dBu, INPUT (PHONE): -20 dBu, INPUT (RCA): -20 dBu, STEREO LINK INPUT: 0 dBu
Nominal Output Level (1 kHz)	BALANCED OUT: +4 dBu, STEREO LINK OUTPUT: 0 dBu
Speakers	16 cm + Tweeter (Coaxial, 2-way) x 2, 6.5 inches + Tweeter (Coaxial, 2-way) x 2
Input Controls	MIC: MIC Button, Input VOLUME Knob, REVERB Knob, ANTI-FEEDBACK Button (ON/OFF), ANTI-FEEDBACK AUTO Button, KEYBOARD1, 2: Input VOLUME Knob, AUDIO: Input VOLUME Knob
Master Controls	Equalizer: LOW Knob, MIDDLE Knob, HIGH Knob, ORGAN ENHANCE Button, AMBIENCE Button, MASTER VOLUME Knob, PHONES VOLUME Knob
Switches	POWER Switch, GND LIFT Switch
Indicators	MIC/LINE, ANTI-FEEDBACK ON/OFF, ANTI-FEEDBACK AUTO, LEVEL METER, POWER
Connectors	MIC INPUT Jacks (XLR type, 1/4" TRS phone type), KEYBOARD1, 2 INPUT Jacks (L/MONO, R) (1/4" phone type x 2), AUDIO INPUT Jacks (L, R) (RCA phono type), LINE OUT Jacks (L, R) (XLR type), STEREO LINK IN Jack (1/4" phone type), STEREO LINK OUT Jacks (R) (1/4" phone type), PHONES Jack (Stereo 1/4" phone type), SUBWOOFER OUT Jack (1/4" phone type)
Power Supply	AC 117 V, AC 220 V, AC 230 V, AC 240 V (50/60 Hz)
Power Consumption	94 W
Dimensions	456 (W) x 343 (D) x 297 (H) mm/18 (W) x 13-9/16 (D) x 11-3/4 (H) inches
Weight	11.5 kg / 25 lbs 6 oz
Accessories	Owner's Manual, Speaker Connection Cable, Connection Manual

* 0 dBu = 0.775 Vrms

OPTIONS

- Organ Bench BNC-23 (for AT-900C)

- Organ Bench BNC-27-WN (for AT-800)

- Organ Bench BNC-27-DB (for AT-500/300/100/75)

- 25-Key Pedalboard PK-25A (for AT-900C)

Subwoofer Unit: SA-1000W

Speaker	30 cm / 12 inches
Nominal Impedance	4 Ω
Connection	INPUT Jack (1/4" phone type)
Dimensions	456 (W) x 325 (D) x 560 (H) mm/ 18 (W) x 12-13/16 (D) x 22-1/16 (H) inches
Weight	11.5 kg / 25 lbs 6 oz
Accessories	Owner's Manual, Speaker Connection Cable, Connection Manual

"MUSIC ATELIER STARTER SONG" (bundled with AT-100 and AT-75)

The essential first step guide to all organ beginners. This self learning package (instruction with score + instruction DVD) allows any organ beginner to play his / her first-ever organ repertoire. In the DVD, Rick DePiero explains intelligibly how to play the latest MUSIC ATELIER, focusing with its unique features such as Hamonic Tonebars .

Committed to producing products that are inviting to use and easy on the environment

*ISO14001 is an international standard for environmental management systems issued by the International Organization for Standardization (ISO). Similarly, ISO9001 is an international ISO standard for quality management systems.

Roland's Miyakoda Factory in Hamamatsu, Japan, is a state-of-the-art facility that has acquired internationally recognized ISO14001 certification for its environmental management systems and ISO9001* for quality assurance. Recycled plastic is used for the MUSIC ATELIER keyboards and keyboard parts with no lead materials used in the organs. Using Roland's original digital-cell production method, each instrument is individually made by hand and carefully assembled with low-environmental impact.
